HYBRID ADVANTAGES

- Performs best on the highly managed acres in ideal yield environments
- Medium-short hybrid with very good stalks and roots
- Very good resistance to Northern and Southern Leaf Blight
- Medium-short statured plant with excellent top-end yield potential

POSITIONING & MANAGEMENT

Strong stand establishment with very good early vigor gets LH 3827 out of the ground fast and never looks back. This high-yielding hybrid performs best when kept in high-yield environments on highlymanaged acres. Its a medium-short hybrid with very good stalks and roots combined with fast drydown. It responds with high yields when planted at higher plant populations.
