ASR Gene for Anthracnose Stalk Rot

Preferred Yield Environments: H= High, M= Medium or average, L= Low

Preferred Population: H= High, M= Medium or average, L= Low

Plant Height: S= Short, M= Medium, MT= Medium Tall, T= Tall

Ear Height: ML= Medium Low, M= Medium, MH= Medium High

Ear Type: F= Flex, D= Determinate

POSITIONING & MANAGEMENT

This strong SS hybrid delivers medium stature, excellent root strength, and very good agronomics for dependable performance. With outstanding drought tolerance and adaptability across all yield environments, it excels when kept in zone and southern regions—making it a reliable choice for consistent results under challenging conditions.
